GA3 Q8 - Which faces are easiest to morph?

Ranking (easiest at the top, hardest at the bottom)

1. Pair 10
   Both colour, both women of similar age, formal clothing, matching frontal framing - closest match.
2. Pair 8
   Both black-and-white portraits of women with similar lighting; only a hand near one face.
3. Pair 2
   Both colour, both men in frontal head-and-shoulders shots; only the cap differs.
4. Pair 1
   Both smiling frontal faces with similar framing; colour vs black-and-white and gender differ.
5. Pair 5
   Both colour and frontal; gender differs and the cap/glasses change the hairline.
6. Pair 9
   Both colour frontal shots; strong differences in age, gender, hair and glasses.
7. Pair 6
   Black-and-white vs colour, man vs woman, head tilt and glasses.
8. Pair 7
   Plain portrait vs stage performer with headdress and dramatic lighting.
9. Pair 3
   Bright red wig and cluttered background vs plain portrait; very different shapes.
10. Pair 4
    Racing cap and sunglasses hide the eyes, vs a woman with a hat - hardest to align.
